[Redacted]

1. Location: On the NE edge of SYZRAN (48°30'E/53°11'N).
2. Plant installations: Area covered by buildings, including auxiliary shops, was about 17,000 square meters. Total area: about 4,000 x 1,650 feet. Two workshops, each 4,000 square meters, were under construction. The expansion work started in 1946.
3. Designation: No. 451 or similar
4. Production:
 - a. In wartime fuselages and airfoils, piles of which were still seen. A minor production of tail units and tail parts of plywood was under way during the period of observation. Two to three carloads left the factory daily but these shipments included products taken from the stocks.
 - b. Main production: 20 combines per day.
5. Labor: 4,500 including 70 percent women; three shifts.

25X1A

[Redacted] Comment:

It is believed that the described plant is the former accessories plant No. 481, SYZRAN, which produced aircraft parts, bomb release mechanisms and other accessories for aircraft in wartime.
